**RECOMMENDATION LETTER FOR SPECTRUM
PAINTING**

To whom it may concern,

Spectrum is well supervised and professional in their undertakings. The values of the projects are very competitive to other companies, but the quality of workmanship far precedes any value. The Team is hard-working, and the Supervisor takes responsibility to ensure Safety is followed.

Spectrum undertook the task of waterproofing the viewing deck. They did a Torch on System using ABE products, and worked in conjunction with plumbers on site at the time of the project.

I have no hesitation in recommending their services.

We trust that the above is in order.

Yours faithfully
