RE: Painting of 2 Office blocks at 3 Flanders Drive, Mount Edgecombe

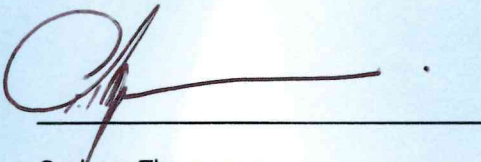

We requested quotations from various well established painting contractors from around Durban. Spectrum's price came in as the most competitive and we engaged their services.

When they arrived to do the project, they brought with them a vast amount of scaffolding to undertake the project, which was essential in order to complete the work in the required time allowed. Spectrum were also well supervised and communicated well with us, so we knew what their schedule of works were in advance. In this regard, we found Spectrum to be very flexible and would adjust their works to suit us.

We are very satisfied with the quality of the painting and the aesthetic look of the completed project.

We would not hesitate to recommend Spectrum from a value for money and quality perspective. We will certainly use Spectrum for our next painting work.

Yours faithfully

Graham Thompson

Director
