We hereby confirm that Spectrum Painting Contractors were contracted to paint the exterior of the Stafford Mews complex last year.

At the beginning, professional advice was given to us regarding the type and quality of paint to be used and the necessary preparation to be carried out. We were guided when choosing the colours, and we were gladly given examples of the various colour combinations.

The painting team was polite, efficient, and always willing and obliging. The work that was carried out was of a high professional standard.

We would not hesitate in recommending Spectrum Painting Contractors to any complex requiring their services.

Yours faithfully  
Val Jaggard  
Secretary: Stafford Mews Homeowners Association.
